

BLACK TRADED COUNCIL VOTES.

In That Manner Third Precinct Councilmen Got Four Thousand Dollar Appropriation.

WILL IMPROVE BY AQUEDUCT.

Councilman Wells Introduces Ordinance Prohibiting Sunday Amusements—Third South Sewer.

There were only eight members of the city council present at the meeting last night and the vote of every one of them was necessary to pass any ordinance, resolution or any measure which appropriated money. Black was aware of that fact and took advantage of the opportunity and did some trading of votes in order to secure the passage of his resolution appropriating \$400 for the purpose of connecting the watermain across Eighth East street at Second and Third South and thus give the residents in that immediate locality a little more water.

The councilmen who voted in this manner, were Black, Wells, and Councilmen Wagoner and Danne. Councilmen Wagoner and Danne were recommending the appropriation of \$100 with which to build part of the sewer on North Temple street from Fifth to Eighth West street. It is the intention to replace the present wooden flume with a substantial stone and cement aqueduct at a total cost of \$10,000, which is a much-needed and a very important improvement.

Black and Wells were very desirous of having the report adopted so that part of the work could be done at once so that it would not retard the work on the Oregon Short Line viaduct on North Temple street. Black objected to the appropriation of \$4,000 to the Third precinct because the council had refused to allow the Fifth \$400 with which to connect enough water for domestic purposes.

CARRIES HIS POINT.

Black and Barnes both contended that the improvement was for the benefit of the Third precinct but was a matter which would be of great benefit to the city at large. They agreed to vote for it if they would vote for his resolution. The vote was made and the \$4,000 was appropriated. Black then carried his point by having the report adopted so that part of the work could be done at once so that it would not retard the work on the Oregon Short Line viaduct on North Temple street. Black objected to the appropriation of \$4,000 to the Third precinct because the council had refused to allow the Fifth \$400 with which to connect enough water for domestic purposes.

Barnes wanted some information on the resolution of Black so Supt. of Public Works was called upon to explain it. He favored the resolution. Barnes then consented to vote for it. Black then withdrew his notice of reconsideration of the ordinance. Barnes took occasion to make a plain statement to Black in which he said that he did not vote for the resolution because it was a matter which would be of great benefit to the city at large. He said that he did not vote for the resolution because it was a matter which would be of great benefit to the city at large. He said that he did not vote for the resolution because it was a matter which would be of great benefit to the city at large.

AGAINST SUNDAY THEATERS.

An ordinance was introduced by Wells which has for its purpose the closing of the theaters in this city on Sunday. The ordinance does not apply to sacred concerts but it applies to all theatrical or dramatic performances. It was read the first, second and third times last night and was passed by a vote of 10 to 2.

INTEREST IN HILL DITCH.

Assistant City Attorney Brand recommended that the city should acquire the Hill ditch water, upon the same plan of exchange as was given the other owners. The matter was referred to the special water committee.

TEST BORINGS.

Upon recommendation of City Engineer Riter the sum of \$100 was appropriated for the purchase of the water from Pleasant View spring, to be turned into the Parley's canyon conduit. The water is to be used by the city and the spring is 63 gallons per minute.

INTEREST IN HILL DITCH.

Assistant City Attorney Brand recommended that the city should acquire the Hill ditch water, upon the same plan of exchange as was given the other owners. The matter was referred to the special water committee.

BOND GUARANTEE.

Mayor Morris submitted the bond of \$1,000 given by the Utah Light & Railway company to guarantee the release from a mortgage of certain property located in the city in connection with the Big Cottonwood water project. The bond was approved.

STORM SEWER.

An estimate of the cost of the construction of a storm sewer on Ninth South street from East Temple to Second West street, was submitted by Engineer Riter. The total cost of the improvement is \$15,800.

SECOND SOUTH SEWERS.

Ordinances were passed levying assessments for the construction of sewers on Second West between First and Second South streets and on First street between Second and Third South streets, caused by moving the construction of sidewalks in the southwestern part of the city.

PROPERTY DAMAGES.

Mrs. Cecilia C. Kirk submitted a claim for \$250 as damages for alleged injuries to her property on First West street between Seventh and Eighth South streets, caused by moving the fence in front of her premises back two feet from the property line in order to construct a cement sidewalk.

PERMISSION TO PARADE.

The council granted the petition of the Grocers and Butchers' association, asking for permission to give a parade on the streets of Sept. 28 to advertising the Pure Food Show and also to string banners across East Temple street to advertise the same.

PAY FOR DRIVERS.

Several of the councilmen made suggestions for the improvement of the city.

TEA.

Good tea is a great good; bad tea is a great bad. You can make the good as bad as the bad by cooking it wrong.

ROYAL Baking Powder

Made from pure grape cream of tartar, and absolutely free from lime, alum and ammonia.

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

At Chicago, Charles McCarthy shot at his brother James, but the bullet, missing its intended victim, hit and instantly killed the father of the two quarrelling brothers.

All the Chinese at Newcastle, Wash., were given 24 hours in which to leave the vicinity.

In a pistol duel at Cottonwood, Mo., the two men mutually clapped each other by the hand and continued firing with the free hand until both were mortally wounded.

TEN YEARS AGO TODAY.

Spain paid to the American government, through London, the \$400,000 delayed \$600,000 indemnity, amounting to \$1,500,000.

Terrible atrocities by Turks against Armenians were reported from Warsaw.

FIVE YEARS AGO TODAY.

W. A. Middleton, a widely known passenger conductor of Ogden, lost a leg and two fingers in an accident in Nevada.

J. R. Keene's colt, Disgrace II, won the \$10,000 prize against the Prince of Wales' Diamond Jubilee.

lery plays when the street sprinkling committee's report was read, which recommended that the driver of the sprinklers be paid half-time for the entire period they were laid off because of shortage of water. President Hewlett urged that the men be paid three-fourths time, while others were in favor of full pay. It was finally stated by E. H. Davis that the men would be perfectly satisfied with half pay, so the report was adopted in its original form.

SPECIAL BONDS.

A resolution was adopted authorizing Mayor Morris and City Recorder Critchlow to execute the third installment of the special water and sewer bonds, amounting to \$200,000. The bonds were signed and shipped to New York yesterday.

WELL WATER REPORT.

The report of the special water committee recommending the appropriation of \$5,000 for boring a 12-inch well near the Liberty park wells for the purpose of testing and developing the underground flow of water in that vicinity, was adopted by a unanimous vote. The report was agreed upon at a joint meeting of the citizens' committee and the special water committee held last Saturday.

PLEASANT VIEW WATER.

Upon recommendation of City Engineer Riter the sum of \$100 was appropriated for the purchase of the water from Pleasant View spring, to be turned into the Parley's canyon conduit. The water is to be used by the city and the spring is 63 gallons per minute.

INTEREST IN HILL DITCH.

Assistant City Attorney Brand recommended that the city should acquire the Hill ditch water, upon the same plan of exchange as was given the other owners. The matter was referred to the special water committee.

TEST BORINGS.

Upon recommendation of City Engineer Riter the sum of \$100 was appropriated for the purchase of the water from Pleasant View spring, to be turned into the Parley's canyon conduit. The water is to be used by the city and the spring is 63 gallons per minute.

LAYING RAILS ON BULLFROG BRANCH

Senator W. A. Clark and Brother J. Ross Clark Said to Have Purchased Road.

BORAX SMITH SELLS HIS LINE.

Salt Lake Route Secures Surveys and Right-of-Way of the Latest Route To Goldfield.

Goldfield, Nev., Sept. 26.—It is stated that Senator W. A. Clark and brother, J. Ross Clark, have purchased the "Borax Smith" line of survey and road from Las Vegas into Bullfrog and that work has already started on the laying of rails into the southern camp. It is also stated that the Clarks will extend their line into Goldfield at the earliest possible moment.

THOMAS MILTON SCHUMACHER

Who Leaves for New York Today to Take up His New Labors as General Traffic Manager of the United Fruit Company.

This afternoon T. M. Schumacher, general traffic manager of the Oregon Short Line, will leave for New York, say an avowed to his many friends in this city and sever his connection with the traffic department of the link in the Harriman chain of transcontinental railroad system.

Notice of his appointment was received in this city this morning in the form of an official circular signed by Andrew W. Preston, president of the United Fruit company, 131 State street, Boston.

It reads as follows:

"Notice is hereby given of the appointment of Mr. T. M. Schumacher as general traffic manager of this company, including United Fruit company."

Among the latest to come west and take a sub-contract on the Western Pacific are Messrs. Witbeck and Dittmer of the firm of Streeter, Witbeck & Dittmer, railroad contractors. Today they are in Ogden looking over the project preparatory to going west and inspecting the route and bid on a portion of the heavy rock work out of Ogville, Cal.

SHORTER HOURS.

Big Railroad Brotherhoods to Seek Reduction in Work Time.

Chicago, Sept. 25.—The Tribune today says:

Preparations are under way for a concerted movement on the part of the big railroad brotherhoods to secure a reduction of the present working hours for railway employees all over the country. The move already has been discussed in the grand councils of the organizations. It is expected that they will assume definite form within the next few months.

The grievance committees of many western railways will gather in Chicago in December to discuss desired changes in working conditions. At the same time the schedules governing wages and hours will expire on at least three western roads, the Northwestern, the Burlington, and the St. Paul. According to plans now laid the opportunity will be seized to broach the proposed demands of the employees.

The present hours of work on the railroad range from 10 to 14, but in no case are they fixed. This is due to the nature of the employment. The brotherhoods, it is said, have no intention of appealing for a limited work day. They have planned rather to seek a general reduction which shall be proportionate in all branches of the railroad service.

WINDOW WAS CLOSED.

Shoe Drummer Threatens a Novel Suit Against O. S. L.

Mr. Cornwall, a well known shoe drummer traveling in this territory, is threatening to bring a novel suit for damages against the Oregon Short Line. He is very fond of fresh air, so recently when he boarded the Cache valley train at Cache Junction he attempted to put his head out of the window without the formality of throwing up the sash. The result was that he smashed the pane, lost his hat, and cut his face. He affirms that heretofore there had been fly specks and dust on the glass, but upon this particular morning the window was so spotted with dirt that he was obliged to close it.

Then we began to talk to others. Wife's father and mother were both coffee drinkers and sufferers. Their headaches left entirely a short time when they changed the old coffee for Postum. I began to enquire among my parishioners and found to my astonishment that numbers of them use Postum in place of coffee. Many of the ministers who have visited our parsonage have become enthusiastic champions of Postum. Name given by Postum Co., Battle Creek, Mich.

There's a Reason.

Read the little book, "The Road to Wellville" in each pkg.

PE- RU- NA IS GRAND,

(So Says a Beautiful Girl Who Had Dyspepsia)

Miss Dollie E. Edens, Charleston, Mo., writes:

"Before I began your treatment my stomach was bloated up all the time. I could eat only boiled milk and crackers, and was even then most distressed after eating."

"Was hungry all the time, but did not dare eat enough to satisfy my appetite."

"The doctor treated me for indigestion. I took so much medicine, but nothing did me any good."

"It is with a happy heart I now write you that I am almost well, and Peruna has done the work. I think it is the best medicine on earth. Had it not been for Peruna and your kind advice, which I followed to the letter, I should have been in my grave long ago."

"I took medicine for a year and nothing helped me until I took Peruna. It was certainly a godsend. One doctor bill amounted to a small fortune of itself."

"My mother and grandmother are now taking Peruna, and it is helping them. I talk Peruna to everybody. The druggist tells me he sells more of it than any other medicine. It is grand!"—Dollie E. Edens.

HOW MANY DYSPEPTICS HAVE BEEN CURED BY PE-RU-NA?

The number of this class of patients which Peruna has liberated from living death is great.

No remedy in the world has ever cured more cases of hopeless dyspepsia than Peruna.

The reason is that most cases of dyspepsia are caused by catarrh of the stomach.

Peruna cures catarrh and thus removes the cause of dyspepsia. Other dyspepsia remedies are simply palliatives that remove some disagreeable symptoms.

Peruna removes the cause, and thus its cures are permanent as well as prompt.
